PROJECTS

PORTFOLIO

🔗 https://aashutoshs-portfolio.vercel.app

A dynamic and responsive portfolio website made using react and tailwind css.

- **Tech Used:** React, Tailwind CSS, HTML, JavaScript, React-Router, Vercel
- **React-Powered** – Utilizes a component-based architecture for dynamic and interactive UI elements.
- **Tailwind CSS Integration** – Ensures a sleek, responsive, and customizable design system.
- **React Router** – Enables seamless client-side routing for a fluid user experience.
- **Vercel Deployment** – Ensures optimized performance, continuous deployment, and scalability.

GYM-website

🔗 https://make-monster-gym.vercel.app

A dynamic, user-friendly GYM website featuring workouts and trainer details.

- **Tech Used:** React, Tailwind, HTML, JavaScript, React-Router, Vercel.
- React – Used for a scalable, component-based UI with efficient state management.
- **Tailwind CSS** – Implemented for a responsive, modern, and highly customizable design system.
- **HTML5** – Structured content with semantic markup for better accessibility and SEO.
- **JavaScript (ES6+)** – Enhanced interactivity and dynamic content rendering.
- **Vercel** – Deployed for optimized performance, automatic scaling, and continuous deployment.
